

Digital leaders meeting – 18.10.2018

Discussion:

As it was our first meeting of the year, we discussed our role as digital leaders and how we hope to have an impact in our school. We decided our role is to keep the children at Coxheath safe online and when using technology (both in school and in the at home) as well as ensuring they know what do if they encounter a problem.

Next we discussed what steps we would need to take to achieve our aims and decided on our next steps.

Aims for the year:

- Ensure children know what to do and who to talk to if they have a problem online.
 - Assembly to introduce ourselves and later in the year on internet safety.
 - Create a leaflet, which has information on staying safe online, for children and parents to have at home.
 - Create posters for school to remind children how to stay safe.
- Be the classroom monitor for internet safety and technology use (ensuring teachers lock computers and turn off boards when they are not being used).

First step:

Before we can create a leaflet or plan our assembly, we decided we needed to collect information about what children are using the internet and technology for. Each digital leader will collect the information from their class and bring it to the next meeting.
