14th October 2025

Dear Parents and Carers,

We are excited to let you know that we have purchased the web-based maths program called **NumBots** for our Key Stage One children.

This program will support the maths work we do in school, and it also gives children the opportunity to practise and strengthen their number skills at home in a fun and engaging way.

Each child has been given their own login details, which you'll find in their learning journal. The NumBots app can be downloaded onto a tablet or phone, or you can access it directly through the website.

A **Parent Guide** is attached with this letter to help you get started. If you have any questions, please don't hesitate to contact your child's class teacher — we'll be happy to help.

We can't wait to hear how the children are helping out Rusty to become a shiny diamond bot!

Thank you, as always, for your continued support.

Yours sincerely,

Mary Chatley
Maths Lead
