Year 2 - Allington, Bodiam, Thurnham

TERM 2 NEWSLETTER

Science will see us exploring different materials and their properties, investigating what materials are made from and why they are suitable for different purposes. In Geography, we will be learning about hot and cold places around the world, comparing their climates and discovering how people and animals adapt to these environments.
Our Design and Technology project, A Chair for a Bear, will challenge the children to design, make and evaluate a strong and stable chair for a teddy bear, using their knowledge of materials and structures.

In RE, will be learning about Judaism, exploring Jewish beliefs, traditions and practices, including Shabbat and the Torah.
How do you stay safe online? In PSHE, we will explore this including how to protect personal information and know what to do if something makes us feel worried or uncomfortable.
Maths - We will be developing our addition and subtraction skills, using different strategies to solve calculations and problems. We will also explore 2D and 3D shapes, describing their properties and identifying similarities and differences.

In English, we will be exploring the fun and imaginative text How to Wash a Woolly Mammoth. We will use this text to learn about instructions and how to write our own clear, step-by-step guides. The children will focus on imperative verbs (bossy verbs), such as scrub, pour, rinse and brush, to tell the reader what to do.

REMINDERS

- Read daily with your child and record the read in your child's Learning Journal
- Practise spellings
- IXL - check in for weekly quizzes

Thank You-
The Year 2 team
