Re: Measles, Chicken Pox, Mumps and Shingles

Dear Parents/Carers,

One of our pupils is currently receiving medical treatment for cancer. This puts the pupil at serious risk if exposed to measles, mumps, chicken pox or shingles.

It is very important that you let us know, as soon as possible, if you suspect your child has measles, mumps, chicken pox or shingles.

Our pupil would need to be given an injection within three days of contact. Please let us know immediately if you suspect that your child has chicken pox or any of the above.

It is also very important that you let us know if anyone in your household has shingles.

Your own child is not at any risk from this situation. However, the health and wellbeing of our pupil with cancer may be at serious risk if exposed to any of the above.

We thank you in advance for your co-operation.

Yours sincerely,
Giacomo Mazza
Headteacher
